Hey,

A North Carolina Firefighter who tragically caused a fatal crash Sunday has been charged with misdemeanor death by vehicle. FF Terry Allen Moore, 41, was also cited with passing in a no-passing zone-both citations by the N.C Highway Patrol. The victim, Doris Oddie, 76, died instantly. Firefighter Moore who was also a medical responder with the Union Fire Department, was responding in his personal vehicle to a medical emergency around 1230 hours and was displaying a red flashing light.

Witnesses said FF Moore had passed several vehicles before coming up behind a line of vehicles which had slowed or stopped. The vehicles were behind the victims car, which had slowed and FF Moore thought the vehicles had slowed or stopped to allow him to pass. However, as he pulled out to pass, the victim made a left turn into her driveway and his vehicle struck the driver's side door, killing the victim instantly. In North Carolina, a flashing red light in the POV of a responding volunteer is a courtesy light only and is expected to follow all applicable laws.

Take Care-**BE CAREFUL.**
